Opening Solutions

Experience a safer
and more open world

The summiteers

A sunny autumn day. Two men and one woman are walking in the beautiful Swiss Alps. You can find out what they face on their way to the summit and what this has to do with ASSA ABLOY Switzerland here:

ASSA ABLOY offers many advantages:

- Complete solutions and product variety from a single source:
The best of the best
- Consultation and support of the different customer groups by area experts
- Customer focus based on tradition
- Investment security thanks to international group

MSL, founded in 1892 by several locksmiths in Kleinlützel, Switzerland, is a traditional company active in the field of Swiss lock solutions and escape and rescue route technology. MSL is an innovative and leading production company in the field of lock technology for security systems.

What we offer you:

- High-quality lock solutions for Swiss market requirements
- Comprehensive solutions: Solid-leaf and tubular frame doors, mechanics to electromechanics, single-point and multi-point locking systems – tested and certified
- Maximum focus on customer requirements thanks to tailored solutions
- On-site problem solver

KESO products have been among the most modern and secure locking systems in the world since 1963. Our philosophy, a key for everything, not only makes your everyday life easier, but also ensures that you always have control over who has keys and which doors can be opened with them.

What we offer you:

- The most secure cylinders in the world!
- Swiss precision engineering at its best
- Whether simple mechanical or complex mechatronic requirements: We have the suitable solution for every building that can be extended infinitely
- Operate all possible cylinders with just one key
- Long-lasting and highly secure cylinders

Planet has been producing drop-down seals for more than 70 years. In 2016, the company introduced its first finger protection program to the market. Planet is synonymous with high-quality and innovative drop-down seals for doors.

What we offer you:

- Solve several problems with one simple product: whether draught, odours, noise or dirt, Planet drop-down seals seal all doors
- Simply ingenious and ingeniously simple solutions
- The right drop-down seal or suitable finger protection for every door
- Planet is and remains the synonym for drop-down seals in Switzerland
